I would be able to.. but it is having a problem. It isn't loading when I play it in Renegade.

It doesn't crash the game, but the loading never finishes. It get all the way to the end, like a half an inch from the end of the load bar, and just stops. I waited like 20 min, and it didn't load.

I think I have an idea of why, but if I am wrong I will need to take out the plumbing of the map and rework it.
