H0RQWER, don't keep instulting people, thats going to get you nowere! And he didnt ask to be on you're mod. Its really fucking unlucky that its going to be made anyway.

1 - You have no "special skill"

2 - There is already a Generals/ZH mod for renegade: Scud Storm.

3 - It's waaay to late to start a Total Conversion with you, by the time you get all the people you need with that attitude, Renegade will be dead, there will probably be another 3D C&C game, and everyone will go onto that.

4 - You can't SPELL!!!
