Starbuzz wrote on Thu, 23 August 2007 15:39Oh, ty for telling me. Dind't know it was called that.

Yeah, it's pretty much useless, I think.

It's more accurate then trying to turn your whole body.

Hold the button, move the mouse, fire.

You dont have to worry about where your guy is in comparision to where his shots will go in order to hit him.
