cncnick13 wrote on Sat, 25 August 2007 18:42i need help i cant play renegade oline now on vista.it says the westwood component i installed is not compatible and i need to reinstall and i did but it still does not work plz help

Install it in Administrator mode, this can be done by:

Right Click CD->Explore->Right Click Setup.exe->Click Run as administrator.

That should fix your issue.

Now to all of those not being helpful, go fuck yourselves and learn how to use the OS before you trash it.
