phill666for somereason i can not dl the update for renegades, it seems that the link on the westwood support site is dead. and now i am looking for a website that does link the the westwood site for the dl. does anyone know of where i can get the latest update? i have tryed the auto update and it gives me the "can not connect" error so if you can tell me where i can get it that would be great

That would be because westwood is gone. Try downloading using the Renegade Auto Update
