The Merovingian wrote on Sat, 01 September 2007 20:38EA also released C&C3 for the Mac as well, along with patch 1.08 for the Mac.

If it's as boring and costly as the Windows version i'm not getting it.

It's a shitty port (I assume, based on the following), Cider sucks.

BF2142 won't even install and I hear Cider doesn't the kind of performances you'd expect.

sigh Having to rely on Windows for PC gaming sucks.
