Goztow wrote on Wed, 05 September 2007 10:07 You will need to format your computer (throw everything off) and reinstall Windows. Then stay off of cheats and illegal software.

When Virus infections get bad, the fix is right there.

I think MS have a guide to re-installing windows. Your PC may have also come with a "Product Recovery" disc, unless you pirated (stole) the PC as well...
