I will not pick a best as I am obvious biased towards AR and APB, being on their development team. However I believe each of the mods has their own strengths and weaknesses. Reborn has great graphics and models, APB is well established and has a large player base already with excellent models and updates coming up very soon, and AR has a lot of features never before seen together in a Renegade mod, but is still in very early development.

Anyway, voting for a favourite is useless since APB is the only one of the three with a playable public release at this point.
