Way to go off topic.

I can't speak for SoQReaL but I can't be arsed to buy a new computer just so I can enjoy a dead game that I only use for clanwars.

I been playing Renegade without RenGuard anyways since August till I get back home so the skin issue with the smoke doesn't concern me. I'm a pure Ren person, don't have a single skin on my GOOD PC in New York. Only reason I downloaded this is to maintain my FPS since my average is 10-12 where I am currently. So I won't be removing it unless Spooky has a problem with it on CW.CC.

PS: TuNaMaN <3 LOL
