1. make power plant
2. make infantry barr, portal, hon
3. make crane
4. build 2 ref's with the mcv and crane at same time
5. build weapon factory and another ref at same time
- 6.start massing rifle/rocket buzzers, militia squad/rocket
7. start making the first two vehicles, they are good for air defense and base defense in early rushes
8. make command post or whatever it is called for nod and scrin
9. make tech
10. make 1 more ref and 1 more wf
11. make medium power vehicles and a few stronger ones

if your nod, then early ingame make a air tower and mass a few venoms usually 20+ will own

Scrin mass devastor warships

Gdi.....mass mammies and juggs

Easily beaten with a simple EARLY infantry rush.
