Yeah thanks for the info and help but im still really lost!  
I don't think ill ever get those flying mixes.

Still, umm a bit of the topic here people but can someone please tell me why when i go to "Make" a Cnc\_GDI\_Orc from the Preset menu it gives me this error!

Below is a SS of the error, please help, it's really annoying!

---

P.S If you can please explain why when i go to Edit, Level Settings and click on it i get pretty much the same error
