So much for objectivity....

Let's be honest here shall we?

A lot of thought and work went into the storyline and single player.

Graphics are good.

Multiplayer is good.

Support is good.

Why exactly are we flaming this high quality product and still hanging on and holding it in comparison to renegade, which at best was a half assed attempt at FPS?

Don't get me wrong. I love ren and want a followup. But c'mon. Let's keep our objectivity intact people.
