Yea, Halo's multiplayer (2 & 3 anyway) is THE game to go to when you want to hear all the "OMG! DID YOU SEE THAT?! I JUST SHOT THAT WARTHOG WITH A ROCKET AND IT DID LIKE 3,000,000 FLIPS IN THE AIR AND LANDED ON *insert pwnee here*"

And Halo 3 improves on this because now every match is recorded on video that you can watch, rewind, fast forward, and move the camera to any point in the game and watch it over and over again.

Basically, perfect game for bragging rights.
