Hello,

This week i downloaded the "C&C Gold LAN and XP fixed AutorunCNC95" at <http://www.mininova.org/tor/475794> made by "Blackhand Studios".

Instaled it in 2 computers but i having a problem to play in LAN MODE.

I create the room ("Multiplayer Game > Network"), enter by the 2nd computer as a client and when i click "OK" to begin the game, the computer show me thios message: "Error: Out of memory."

Can someone help me to solve this problem?

Thank you.
