They are a gimmick made only by cooler master and are not for individual resale. The only way you are going to get a pair is to buy the case/other cool master case or if for some odd reason someone put it on eBay.

EDIT: Just get something like this:

<http://www.amazon.com/FULLER-135-0916-16-Piece-Precision-Screwdriver/dp/B000BDDG8Y>

My set has made all the difference in the world, different brand though.
