Hi

I am not to sure if this is the correct place to post this but i dont know where else to do it, Basically I have had a few ideas for competitions e.t.c. and basically I was wondering if it is possible to customise the server or if there are any custom ones out there, I have not even run the dedicated server yet even though i have it so I was wondering does it save results of the people who are on it e.t.c. because i want to run a private competion

I hope this was not boring to read!
