Imdgr8onel met a guy named suprpee1. This guy is a complete idiot, I honestly this guy is a waste of brains and should honestly be shot. He walked around with his favorite weapon the blue beam of death aka his acid ray. I was defending the refinery on Field. This idiot walks into my proxy's and tells me I'm a noob and a cheater because I made the ground explode....anyone had any of these recently?

I know this should be on n00bstories, but still this is too bad for that. Ban him immediately if he enters your server....

LOL, I "fought" against him yesterday and he called me a cheater because his "Blue beam of death" didn't hurt my Raveshaw when he shot me. I kept telling him that it was a repair gun but he kept saying things like "don't make your cheating so obvious" Thanks to him I was able to kill 2 Havocs and another one who was trying to kill me. This guy deserves the n00b of the month award.
