SCUD STORMMMMMMMMM!!!!!!

You have another supporter Dregan. However, I'm not registering on the forum since I have accounts on about 4 or 5. I also don't have any skills aside from possibly level edit. I could be wrong though, since I hacked renegade for fun only to change it up a little.

objects.dds is like a second reanguard. I accidentally logged on with it in my data folder and I couldn't log on the sever. How people bypass that, i'll never know.
