AoBfrost wrote on Wed, 10 October 2007 14:03 I think sonic being in the game is kind of stupid, most of the characters in the past series were all 100% made by nintendo, and now they bring in a sega made character just because he was part of nintendo for a while, sega is also with playstation, I dont see jak and daxter in ssb (sega didnt make jak and daxter, but still they are a playstation game, and sega is conencted with playstatkion releasing games here and there.....)

Uuuh, Sega has never been limited to any console besides their own. They're a 3rd party developer and aren't "with" anyone.

Pokemon and Kirby(I think?) aren't Nintendo franchises either yet they've been in SSB since the first one. Sonic fits in fine.
