Oh oh, let's just ignore bat66wat6 cus we don't care about his problems anymore!

LOL, that;s what ur doing to me!!

As long as ur all ignoring my problems and posts let's go off topic 2 shall i!!

MY FDS WORKS!!! IT WORKS I CHANGED THE HOST 2 a00000btw and the password in NR and IT BLOODY WORKS

BUT... After i join as bat66wat6 i do not have my Admin powers that i granted myself from NR, i have to login!!

I already check listed (Auto-login moderators in NR)

How do i change this, as having to type my password for NR in ingame sucks->plus other people can see my password and exploit it!!

Ontop of this after i logged in i minimised Renegade nad went ot NR and onto the FDS Control pannel and it showed that i wasn't ingame->it took like 10 mins to realise im ingame and let me use my powers even after i logged in?
