Yeah manm that tutorial is the best 4 beginner like me making doors->easy to understand although it's hard to hear your voice even with full volume and Media Player volume...

The one bit i can't do is the very start

What is that program you start of in? It isn't XCC Mixer is it?

Cus it doesn't look like it>

So basically what im saying is i can't get the door texture that you got at the start
