Can someone clarify what happened? Or what the hell this thread is about.. because I fail to see...

How was he cheating and how was he caught? ...All I see is that troop lost a retarded 1vs1 AOW match...

And for those of you who don't understand why I say "retarded" it is because such a match doesn't prove any sort of skill. All it is is a contest about who can destroy an empty enemy base faster... it is the most retarded thing in online Renegade...
