SlikRik wrote on Fri, 19 October 2007 10:27My general view is there's nothing you can't do on a Mac that you can't do on a PC.

Nay.

Try playing any windows based game, like Renegade, Halo, Dawn of War, an dozen mmorpgs, I bet you can't play WoW on it, hmm, you can't play the newest version of America's Army so on.
