http://www.game-maps.net/index.php?action=category&id=79]... never heard of it. O.o

Mmmm I was already running game.exe and game2.exe on compatibility mode, administrater, etc so no joy there.

And no joy for the online solution either, because I was already logged in with the account I have from my other C&C game (I <3 C&C).

Besides, if I go straight online I be punched fulla "z0mg u n00b lmao!", waaaaaaaaaaaaaaa!

I don't get why vista wrecks renegade anyways O.o all my other equally old C&C games work fine, some with compatibilty mode.

While I'm here, wth is this thing meant to be?!! (attachment)

MY BRAIN HURTS! *sniffle*
