For all its many, many, many, many... many, many faults, I actually quite like vista, and anyway my XP disk is ummmm... not entirely *cough* legal *cough*.

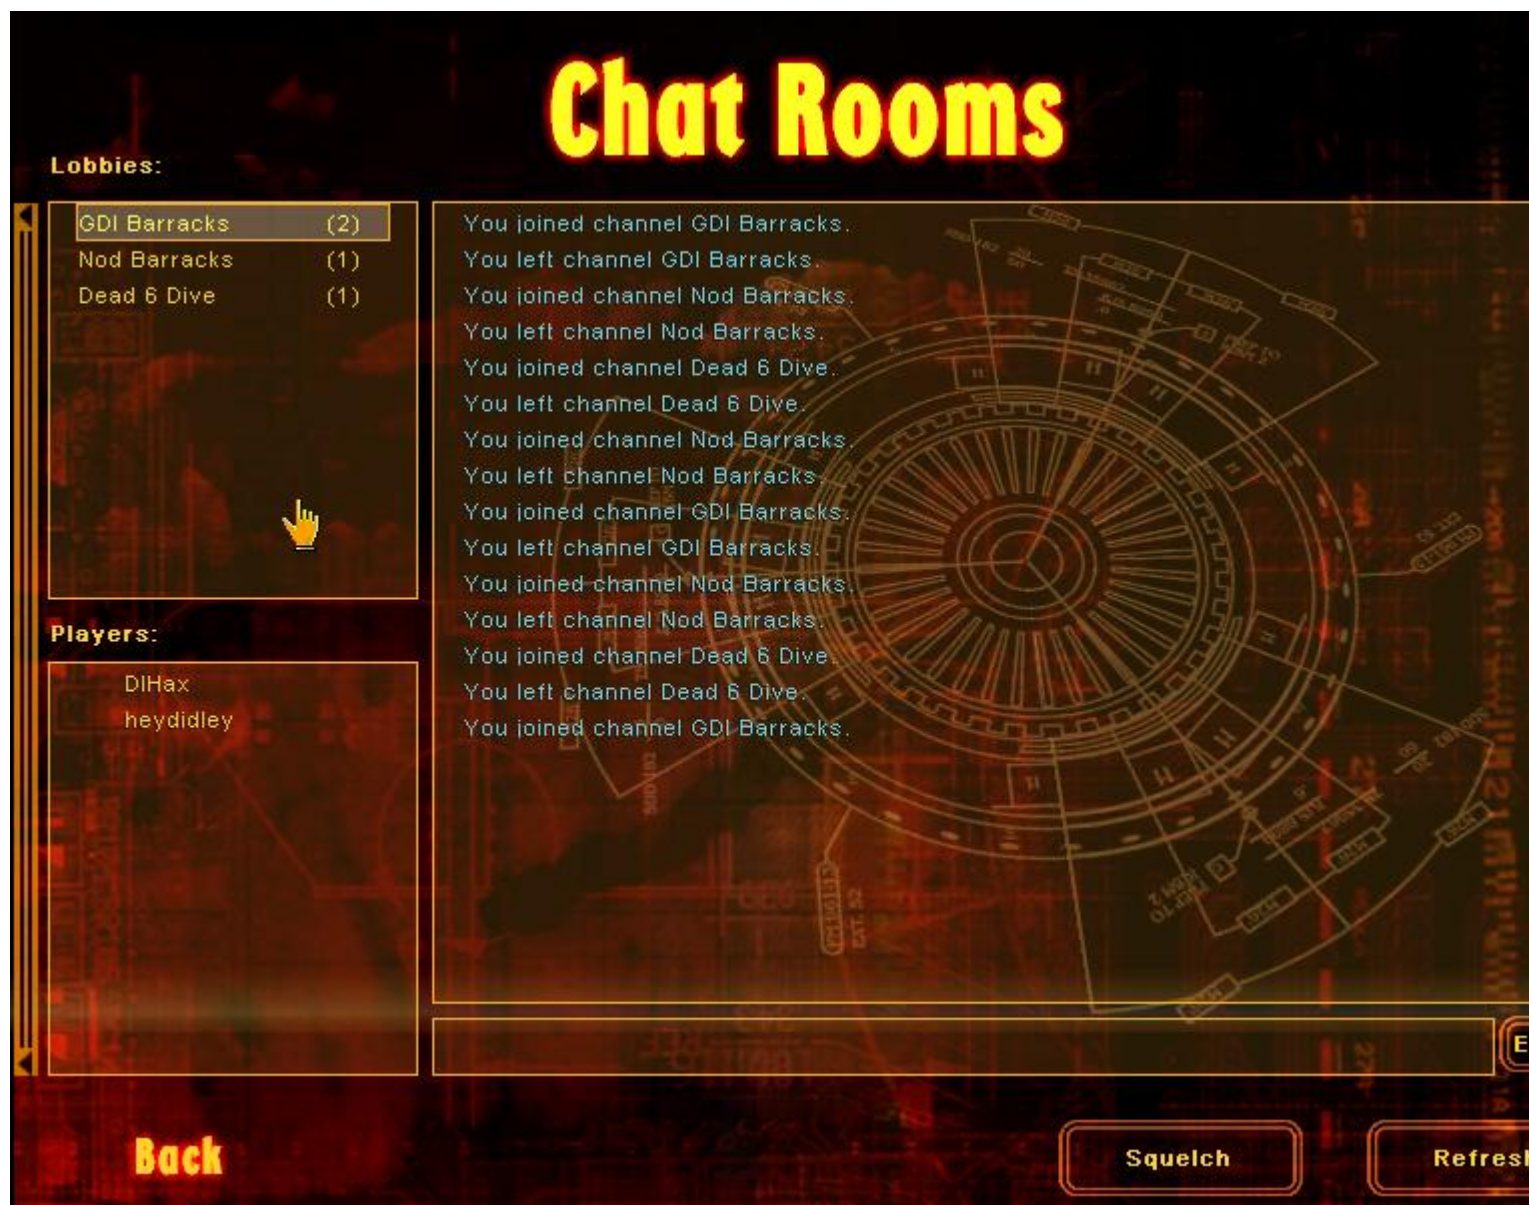

So if single player is a lost cause... maybe I can save my online. When I go into the online lobby it's completely empty... considering this is mid-afternoon for the americans, who seem to play non-stop... it seems a bit wierd that NO ONE is on, and wierder still, the "Welcome to "XWIS" box that comes up says there's 600ish players online. I've unblocked it from windows firewall, windows defender etc, I'm gonna go insane soon! Why me!
