Is this on Vista?

If so check here: <http://www.renegadeforums.com/index.php?t=msg&th=26283&start=0&rid=996>

EDIT: If not I don't recall anything else that is similar. Past that you might want to let someone connect via msn and poke around a bit.

EDIT2: That card is well within Renegade requirements so unless its faulty hardware wise it should be fine.
