Considering that even though the US spends the most money on education on Earth, more than any other nation, and the education system is worse than many European countries, it leads me to believe BartGg is right.

leads to...

BartGg wrote on Thu, 25 October 2007 11:49amricans still think there cowboys running round with there guns n shit.. soon enuf the stupid amricans gona with there nukes then.. well i kinda gota say I TOLDYOU SO.

I don't think the English have a much better education system either.
