If you want a fight in real life because someone said you're dense over a computer game forum,
there's really no words to sum up how crap your life is.

I know you probably think you come across as some kind of tough guy, but you don't. You come
across as a lonely scrub who gets beaten up at school every day and takes out the anger in front
of people who don't know you personally and haven't seen you for the wretched little pleb you are.
