SSADMVR wrote on Sun, 28 October 2007 14:30do u seriously believe that bullshit...? the help came way to late and every1 knows it, how the fuck do u not help ppl in one of ur own cities when u see them drowning; turned down by the governor or not; he shouldve sent help in.

The people were ORDERED to EVACUATE. There were many methods of getting out of the city. Those drowning were a result of their own stubbornness. Are you going to blame the government for the stupid actions of fucking idiots? Seriously?

What happened was on the state level. It remained on the state level, and if the federal government was turned down for help, it should accept it. I'm not for giving my overpowering federal government more power than it deserves.
