PlastoJoe wrote on Mon, 29 October 2007 17:44l wonder what the world would think if we went to war in Darfur...

George Clooney thinks there should be an intervention in Darfur.

Of course, as soon as it becomes a disaster, he'll go on Entertainment Tonight, and say that it was government mismanagement, and that he cares for starving children, and then drive off into the sunset in his shitty little hybrid car.

al-Qaeda would love it if the West headed into Sudan.
