Sk8rRIMuk Don't hold V go to options then select turret lock and it acts in reverse so you always have that way of looking around and if you press V you use the old way but using turrets lock is the best.

-Sk8rRIMuk

I also found that if you push the scroll roller thingie in the mouse it switches between turret and vehicle lock, but that might be how I set up Renegade on my computer, I don't remember.
