
Subject: How do you get this game to work nowadays?

So I used to play this game way back in the day when it first came out, and after about 2 years of college I wanted to come back a play a few.

But I can't figure out what I need to play...

I guess maybe I need Renguard to keep out all the cheaters, which is why I quit playing in the first place. But maybe I need something else?

Thanks
