Well....I have always wondered! GDI seems to be significantly behind in technology compared to NOD...As nod has made many many Advances such as Stealth Cloacking technology E.G STEALTH TANKS/SBH

They have also harnessed lazer technology and mastered it in the form of weapons whilst GDI has mainly seemed to focus on Ionic based technology such as Personnel Ion Cannons and the all famous Ion Cannon Satellite-->

What i am stating here is that for a worldwide Multi-Billion dollar defensive movement they are behind in the latest forms of combat against NOD!

GDI hasn't even researched stealth cloaking technology and tried to apply to some of there existing weapons like Tanks!

WHY NOT!? If GDI mastered such technology's as NOD has then they would find it alot easier to defend and protect the Planet from NOD and it's endless effort to dominate it!
