I can't help whether they do it or not, but still, I would not have shared something like this for that very reason. Its just best not to provoke a persons curiosity like that.

If people are stupid enough, I see no reason why it shouldn't be entertaining.

Good job in completely missing Dave's points.

Curiosity is a powerful human emotion which most humans submit to to defeat it. It takes strong (but easily attainable) self-control to subdue curiosity. Go figure.

And incite more curiosity? Then it makes sense not to spread the word in the first place.
