StarbuzzGood job in completely missing Dave's points.

Curiosity is a powerful human emotion which most humans submit to to defeat it. It takes strong (but easily attainable) self-control to subdue curiosity. Go figure.  
I missed his point, or did you miss mine?

I don't give a fuck what "curiosity" can do to a person. It still doesn't take away from the fact that it's their own personal decision to bow to their curiosity. They, obviously, had to go through the trouble to Google it and then proceed to click on the link. It's not as if Rocko posted the link and they clicked on it before they noticed what they were doing.

Plus, if you're that disturbed by what you see, then it'll do you some good to be desensitized from the "horrors" of humanity.
