That post you you sent hit every spot for me to be so infuriated that if you where standing in front of me i'd punch you!

As havoc9826 said you do NOT have all of your facts straight

Note the post order; the details didn't come out until after I posted. Yes, I was mistaken. I'd go back and edit, but it seems that the edit feature has timed out and disappeared.

However, you're not getting an apology- even if I could edit my previous post, it would only be because I very much dislike getting my facts mixed up. I've no more respect for you now than I did before havoc posted. You're still a troll; you've been disrespectful to almost every single member of these forums who posted in this thread- even the ones who tried to help you. You still deserve every ban you've got- even if only for your conduct after the fact. You misdirected your anger; you came in and started flaming people you'd never met before rather than directing that anger at your damned fool sibling where it belonged. I dislike people who do that just as much as I dislike cheaters, so you're shit outta luck as far as an apology goes.

Oh, and if you still want to punch me, I go to school here and live in Omega complex room 301. Come get me if you like.

Yet again Nuke makes a great post. I tried to help you before bat, but after seeing this... I couldn't care less. So basically:

In Before Lock!
