Don't be put off by the lame page layout, and the especially hard to find download link...Super is awesome, and totally free, and converts anything to anything.

I also suggest having the CCC: http://www.cccp-project.net/

Holy Jesus that download link was like a game for them.

Cheap out: (For those who aren't so playful)

Sadly a direct download link like that doesn't work   Since Super is free, the only way they make money is probably via the ads on the site, so they make sure you get exposed to them
