60 minutes. It's the only way to play a proper match. Games lasting for 30 minutes are normally over too fast if your in an all out war. I've seen lots of last minute rushes on fiels in the 55th minute normally resulting in a win if it is done properly. Saying that who like playing volcano for an hour with only a Nod and GDI pp left.

BTW the pics aren't mine but they were taken on my clans server (32 players or 30). The fact that it's gamespy is N/A and has nothing to do with the conditions.
