CarrierII wrote on Thu, 15 November 2007 18:38 Romaner wrote on Thu, 15 November 2007 17:19 sorry to revive an old topic but i just built my new computer and got it to work all stable and cool.

so its amd 5200x2 1+1mb cache.  
asus m2n32 sli deluxe mobo.  
2x1gb pc6400 ram (800mhz).  
2x8500gt 256mb vid cards in sli mode (putting the other one in this friday).  
sonata 3 case with 2x120mm fans.  
and seagate sata hd 250gb.

Heh, I just build my new one too!

This is to replace the one with the Skt478 single core P4 I entered earlier, it's a little more advanced...

Asus P5K mobo  
Intel Quad Core 2.4 ghz  
2 GB RAM  
160 GB HDD  
Sonata cases are nice, aren't they?  
64 Bit Vista (Was annoying sometimes, but this picture redeemed it...)  
Toggle Spoiler

Heh, the HDD is a little small no?
