How humiliating.

I think you completely missed the point. My point wasn't slating America for that, it was a jibe to the multitude of retarded, arrogant Americans who say things like "you'd be speaking German if it wasn't for us" every time they're losing an argument with a European. It makes me think America is the one country that hasn't gotten over World War 2, sometimes. If retards like that want to see a true example of selfless action to help an ally, they should look to the nation they love to bitch at for being spineless: France, the country that bailed them out.

That would be ignorant, though... it's surely a minority.
