Saudi's run by a bunch of sleazy medieval gangsters, and what's worse is we (the UK) do everything we can to keep them happy. Like I said in the other thread... sell them top-of-the-range jet fighters, treat them as honoured guests, call off corruption investigations...

...because we need their oil

They even lectured Europe on human rights recently saying Muslims in Europe aren't freely able to practice their religion. I don't know what's funnier: the fact that Europe bends over so far backwards for Muslims that it's going to end in catastrophe and the Saudis pretend they don't realise this, or the fact Saudi Arabia has the gall to criticise anybody else's human rights policy at all...
