It does, but not very many. (Exit, client optimization, etc.)

It contained plenty...

Hey dudes, I think I know what I'm talking about.

The scripts.dll made by Westwood doesn't contain a single console command. The standard console commands are all in server.dat, game.exe.

WW Scripts.dll only contains ren scripts.

It's only jonwil who renamed scripts.dll to scripts2.dll, and who abused this library for other stuff than ren scripts.

And the exit command is made by jonwil too.
