I believe the installer for APB should have it don't know which version of it that has it tho.

EDIT: opps sorry it was not the installer for the game it was for the FDS > http://game-maps.net/index.php?action=download&id=523 (32mbs) uncheck everything except westwood internet conponents(some name similar to that not 100% of the name)

PS. WRONG section please post in renegade section for help with renegade.
