I've found a few camera glitches where the camera turns 180 and rather than seeing down, you see up, I've found ways to make the pitbull drive on cliffs, up and down them, I've glitched vehicles to walk on water as if it were solid drivable/walkable land. I've found telling a gdi soldier to dig in on a bridge, tell him get out, then dig in at the same spot makes him sit on his dig in and keep digging for eternity.
