I don't care about it visually, but it kind of cuts into the discussion flow. I actually like the Green, Turquoise-ish color, and Black. It's perfect and not what you see alot of on the web. The Yellow-White text seems a little dull though. Really though, as long as it's not terrible, which it isn't, it's enough. I'm here for the content and not the looks anyway.

I think avatars/signatures are a necessary component in forums; especially a gaming forum.

Sometimes I have noticed that they become a slight nuisance especially when there is a chain of one-liner and short posts.
