The inf beta will be out tres soon (atleast compared to teh 4 years it's taken ) They are pushin fer christmas inf beta, but no promises will ever be made for dates by reborn They're doing the levels and fixing the weapons i believe they said in a update... I'm not positive, but we're getting so close it's like HEAVEN ON EARTH in the modding world... Plus Rp2's update should be around the same time i think but i'ma stay ontopic now ;D
