Oh, yeah, by this volunteer security guard armed with a gun. I know it sounds crazy, but a citizen (though, she is a FORMER cop) owns a gun and used it on someone set on mass murder. Yeah, I know, this is just more proof that law-abiding citizens with guns is not a good idea, amirite?

If the mass murder wasn't able to buy a gun like every other citizen in the first place, then this wouldn't had happened.

Crazy idea that yes?
