Anime's just like every other show out there. There's stupid overdramatic shit, and then there's good stuff to watch.

It's just animated and Japanese. Personally, I find animated shows to be much more entertaining. Last I checked, The Simpsons, Family Guy, South Park, and all that are all animated. But somehow, they're among the most populer TV shows.

But hey, I guess reality TV is much better than that. Disregarding the fact that it's about as real as a cockroach killing the core defender.
