The thing is, is that you should have never even made him a leading member of your website in the first place. If you needed any shred of evidence that he might not be good material, you only had to look here.

And now, your website is a joke, because he went on and on about BSS; people will now be calling it BigShitty Studios.

I guess its not totally your fault that he's an idiot, and came across that way on the internet, but because of all this, you've let him hype up your site, and you have absolutely nothing to show for it.

He's not the only one ruining BSS' reputation... if you head to n00bstories, you'll find a player by the name of iAmHeyi...

I'm not sure if you can access that link, but if you can, you'll see that your website needs an age limit of at least 16.
