CarrierII wrote on Tue, 18 December 2007 13:51I'm lying to you, to be honest. I doubt my home server needs all 1.5 GB of RAM. If you really do want 512MB of RAM, PM me.

I can't tell if you're being serious, I'm buying a 1GB dual stick set soon, so 1.5GB o' ram! yeay!

So then you can have 1.5 too!

I might just buy a new mobo that supports AM2 or something higher, DDR2 and SATA-II and on-board audio.
